

TEKSAV
DIŐ TİCARET LTD.ŐTİ.

Teksav Foreign Trading Co.Ltd. – Electric and Electronic Machines

The vision and core values (as a foundation) of our parent company, Danfoss, live up to the expectations of being responsible world citizens. This is deeply rooted in our history and culture and is reflected in the way we carry out our business.

Teksav Foreign Trading Co.Ltd. – Electric and Electronic machines

The relationship we have with our customers is characterised by mutual trust. However, we are aware that this trust must be earned through our actions and our corporate reputation.

Teksav Foreign Trading Co.Ltd. – Electric and Electronic machines will be a global leader within our core businesses, as a highly respected company which improves the quality of life by mastering advanced technologies in customer application, while creating value for all customers. We have been working in the agricultural industry for 30 years, with the mission of producing better machines which are more productive and yet kind to the environment.

Teksav Foreign Trading Co.Ltd. – Electric and Electronic machines ;

Offers to farmers and horticultural greenhouse owners products that will fulfill their needs. The main strategy is to produce machines that are both practical and economic, thus optimizing both labor and time. All products meet international standards and are licensed by the Agriculture Ministry of Turkey. All products carry a two year warranty and within this period any defective part, not caused by mishandling, will be repaired or replaced.
