laptop desk

Folding life stack space

Fashion gifts

Improving the quality of living

Foldinglife pursuit : beauty and quality
Beauty is beauty of products ; quality is quality of living !

- Foldinglife Inc. TM brand, has become a recognized industry users Ergonomic Laptop Chinese industry leading brand of tables
- possess nearly 10 national patents
Lenovo, Founder, Tongfang, HP, TCL, Benq, Toshiba, Google China and other notebook manufacturers designated the third-party supplier of gift.
- Products exported to Germany, Denmark, Japan, Korea, Australia and other countries; ;
- Joyo, Michael Lin Mart and other large networks and mail-order company's long-term supplier ;
- it is early may be the sole take electricity code and sole product code QC management's brand
- Product definition and R & D process using pro / E, SolidWorks, Inventor tools , quickly respond to the special requirements of users
- solid wood, curved wood, artificial board, plastic, aluminum alloy, such as a variety of materials and environmental protection paint, spray, blister, oxidation, electroplating and other processes of processing capacity, facing the bed, cars, sofas, desks and more kinds of application environment design, the 500,000-year capacity, seven series of products, more than 15 kinds of specifications, 25 kinds of color models, folded Living TM has the most complete product line;
- almost every kinds TM foldinglife Products, there are at least five similar companies buy the patent right to use or imitation;
Our goal is to be the best ergonomics engineering computer table manufacturer in the world

Laptop Desk Demand-Supply Analysis

- It is reported by Gartner, The first quarter 2010 global sales of laptop total quantity 50 millions, increased by 43.4% compared with the same period last year. The popularity of notebook computers, making the majority of notebook users on how to use the book more comfortable to the new demands.
- Before the computer desk appear , through careful observation ,summed up several phenomena when use notebook:
 - 1、 Bed use. the volume of laptop is small, a lot of "lazy people" likes use on bed, and some enjoy up on the belly, not comfortable.
 - Beautiful girl it's better .the worse hot red the belly,but the handsome may be effect the health,it is reported by Sina news: lay on thigh effect male infertility
 - 2、 Office use ,when use laptop on the desk, because of the height of screen is low ,the user will bent back to work
- 3、 Transfer problem. The biggest advantage of the notebook it is easy to carry. but old-fashioned computer table is not carry
Laptop sales growth inevitably will bring the growth of demand of laptop table, each user in using the notebooks is our potential customers.
- Not only that, student is our another major needing group. Why say that ? In most areas, students is more , and dormitory space is relatively small, should not be able to meet each student's desk independent, but bed laptop desk can achive that each person can have their own "desk"
- Summary: Based on the above points, "foldinglife" came into being. A wide variety to meet the needs of a variety of different tables one after another the birth of laptop. Seeing such a huge consumer groups, don't move your heart ? Add to the "foldinglife", let your life be more colorful!

Foldinglife 1 series—101

commodity name : comfortable pattern

- features: the desktop of this pattern can not rotate, and always be in a plane level with tilt legs. It is convenient to adjust the angle.if you use more keyboard to typing and play games, advice your select 402 or 401 , priority recommend 402
- Desktop standard:25X40cm (can put 19 inch laptop desk)
- Adaptation body size: 140-190 cm tall, weighing less 100 kg
- Desktop inclination: 0-85 degrees adjustable
- Inboard maximal width: 64 cm (normal body is 35 cm wide, covering three quilts does not affect to use it)
- Inboard maximal height: 35 cm (normal body is 22 cm thick, you will feel tired if it is more high)
- Ingredientsmaterial : Russian camphor wood (homemade camphor wood are not recoverable)
- Drying: hot air of 85°C , 180 hours
- Packaging boxes: standard double corrugated export paper
- assembly: assembled within two minutes without any tools
- Packaging specifications: 50.5 × 32.5 × 5 cm
- Weight: 2.3KG
- Degreasing: no degreasing (camphor contains the minimum amount of fat in all types of pine resin)
- Hardware: "Folding life" special hardware
- Tenon plastic: Novocherkassk (Shanghai Norton)
- Patch plastic: **Connaught glue .Koyo of Japan**
- Available colors: true color
- Paint: Yaguang paint
- Polisher: 500# sandpaper
- Out package standard: **two layer corrugated paper of export standard**
- Technology standards: IKEA style
- Formaldehyde content: European E1 standards is 8mg/100g (formaldehyde international standard is 10 mg / 100g, The European standard is 8 mg / 100g, China's wood-based panel for the formaldehyde content of the standard is 30 mg / 100g)
- Assembly: no need any tool only 2 min
- Packing specification: 40 × 25 × 4cm
- weight: 1.5KG
- Comfortable pattern suit for more than 95% of Asian adults,please select enlarge pattern

Foldinglife 1 series—102

Commodity name : enlarge pattern

- Features: the desktop of this pattern can not rotate, and always be in a plane level with tilt legs. It is convenient to adjust the angle. if you use more keyboard to typing and play games, advice your select 402 or 401 , priority recommend use 402
- Desktop standard: 25X40cm (can put 19 inch laptop desk)
- Inboard maximal width: 75 cm (normal body is 35 centimeters wide, covering three quilts does not affect to use it)
- Inboard maximal height: 42 cm (normal body is 22 centimeters thick, you will feel tired if it is more high)
- Ingredients material : Russian camphor wood (domestic made camphor wood are not recoverable)
- Drying: hot air of 85°C , 180 hours
- Degreasing: no degreasing (camphor contains the minimum amount of fat in all types of pine resin)
- Hardware: "Foldinglife" special hardware
- Tenon plastic: Novoherkassk (Shanghai Norton)
- Patch plastic: **Connaught glue Koyo of Japan**
- Available colors: true color
- Paint: Yaguang paint
- Polisher: 500# sandpaper
- Out package standard: **two layer corrugated paper of export standard**
- Technology standards: IKEA style
- Formaldehyde content: European E1 standards is 8mg/100g (formaldehyde international standard is 10 mg / 100g, The European standard is 8 mg / 100g, China's wood-based panel for the formaldehyde content of the standard is 30 mg / 100g)
- Assembly: assembled within two minutes without any tools
- Packaging specifications: 50.5 × 32.5 × 5 cm
- Weight: 2,3KG

Foldinglife 1 series-101B

commodity name : comfortable and enhanced pattern

- Features: the desktop of this pattern can not rotate, and always be in a plane level with tilt legs.
 - New type special hardware, improve the product load-bearing and the durability in perfect.
 - Desktop standard:25X40cm (can put 19 inch laptop desk)
 - Adaptation body size: 140-190 cm tall, weight less 100 kg
- Desktop inclination: 0-85 degrees adjustable
- Inboard maximal width: 64 cm (normal body is 35 cm wide, covering three quilts does not affect to use it)
 - Inboard maximal height: 35 cm (normal body is 22 cm thick, you will feel tired if it is more high)
- Ingredientsmaterial : Russian camphor wood (homemade camphor wood are not recoverable)
- Drying: hot air of 85°C , 180 hours
 - Degreasing: no degreasing (camphor contains the minimum amount of fat in all types of pine resin)

 - Packing specification: 40×25×4cm
 - weight: 1.5KG
 - Comfortable pattern suit for more than 95% of Asian adults,please select enlarge patteng

Foldinglife 1 series—102B

Commodity name : intensified and enhanced pattern

- Features: the desktop of this pattern can not rotate, and always be in a plane level with tilt legs.
- New type special hardware, improve the product load-bearing and the durability in perfect.
- Desktop standard:48X30cm (can put 19 inch laptop desk)
- Adaptation body size: 140-190 cm tall, weight less 100 kg
- Desktop inclination: 0-85 degrees adjustable
- Inboard maximal width: 75 cm (normal body is 35 cm wide, covering three quilts does not affect to use it)
- Inboard maximal height:42 cm (normal body is 22 cm thick, you will feel tired if it is more high)
- Ingredientsmaterial : Russian camphor wood (homemade camphor wood are not recoverable)
- Drying: hot air of 85°C, 180 hours
- Degreasing: no degreasing (camphor contains the minimum amount of fat in all types of pine resin)
- Hardware: "Folding life" special hardware
- Tenon plastic: Novocherkassk (Shanghai Norton)
- Patch plastic: **Connaught glue .Koyo of Japan**
- Available colors: true color
- Paint: Yaguang paint
- Polisher: 500# sandpaper
- Out package standard: **two layer corrugated paper of export standard**
- Technology standards: IKEA style

- Assembly: no need any tool only 2 min
- Packing specification: 50.5×32.5×5cm
- weight: 2.3KG

Foldinglife 4 series—401

Commodity name : wood IV

- Desktop can rotate within 360 degrees, the height of the shaft can adjust within the scope of 29 -41 cm to meet the requirement of reading and writing, also can be used as notebook computer support bed table, dining table, coffee table;
- Desktop standard: 50×30cm (designed by the length of A4 paper)
- Ingredients: Russian camphor wood (homemade camphor wood are not recoverable)
- Drying: hot air of 85℃, 180 hours
- Degreasing: no degreasing (camphor contains the minimum amount of fat in all types of pine resin)
- Hardware: "Folding life" special hardware
- Tenon plastic: Novoчеркасск (Shanghai Norton)
- Patch plastic : Connaught glue .Koyo of Japan
- Paint: Yaguang paint
- Polisher: 500# sandpaper
- Packaging boxes: standard double corrugated export paper
- Technology standards: IKEA style
- Assembly: assembled within two minutes with the tool of household screwdriver
- Packaging specifications: 50×30×5 cm
- Weight: 2.6KG

Foldinglife 4 series—402

Commodity name : Solid IV

- Desktop can rotate within 360 degrees, the height of the shaft can adjust within the scope of 29 -41 cm to meet the requirement of reading and writing, also can be used as notebook computer support bed table, dining table, coffee table;
- Desktop standard: 50×30cm (designed by the length of A4 paper)
- Ingredients: Russian camphor wood (homemade camphor wood are not recoverable)
- Drying: hot air of 85℃, 180 hours
- Degreasing: no degreasing (camphor contains the minimum amount of fat in all types of pine resin)
- Hardware: "Folding life" special hardware
- Tenon plastic: Novocherkassk (Shanghai Norton)
- Patch plastic : **Connaught glue .Koyo of Japan**
- Paint: Yaguang paint
- Polisher: 500# sandpaper
- Packaging boxes: standard double corrugated export paper
- Technology standards: IKEA style
- Assembly: assembled within two minutes with the tool of household screwdriver
- Packaging specifications: 50×30×5 cm
- Weight: 2.3KG

Foldinglife 7series —701

- Features : 1. can bear the weight of 17-inch wide-screen notebook fuselage (as an example of Dell Inspiron 9200. body Size : 41.5 x 394 x 288mm); 2. the desktop can rotate in the scope of 360 degrees, desktop angle adjustment and fixing can be completed fastest within three seconds;
- 3. desktop height can adjust within 17-40 cm, to meet the people of 140-190 cm height to use it, adjustment and fixing can be completed fastest in eight seconds;
- 4. desktop should be as small as possible, but the lower space width of the desktop should be over 60cm, the weight of 100 kilograms users can easily use it.
- 5. when not used, can be folded up fully and take up less space;
- 6. when people use it in the condition of full-lying or half-lying, the two legs can unbend , bend, and cross, this is the consistent characteristic of folding life: making the users' legs display optionally.
- 7. more stable and firm, model is more beautiful, and the style is uniform, to meet the function and visual aesthetic requirements at the same time.
- Desktop size: 48*30cm,
- Desktop oblique range: 0-360 degree
- Inboard width: 62cm
- Inboard maximal height: 40cm
- Material: desktop adopts environmental medium densified wood;
- bending legs adopt aspen, birch plywood;
- desk legs adopt Russian camphor wood
- Degreasing: no degreasing (camphor contains the minimum amount of fat in all types of pine resin
- Hardware: "Folding life" special hardware
- Tenon plastic: Novocherkassk (Shanghai Norton)
- Patch plastic: **Connaught glue .Koyo of Japan**
- Available colors:whit pink blue cyan orange.
- Drying: hot air of 85°C , 180 hours
- Paint: Yaguang paint
- Polisher: 500# sandpaper
- Technology standards: IKEA style
- Formaldehyde content: European E1 standards is 8mg/100g (formaldehyde international standard is 10 mg / 100g, The European standard is 8 mg / 100g, China's wood-based panel for the formaldehyde content of the standard is 30 mg / 100g)
- Assembly: no need any tool assembly only 2 min
- Out package standard: **two layer corrugated paper of export standard**
- Packing specification: 53×35×4cm
- weight: 2KG

Foldinglife 7series—705

Features: 705 on the basic of 701 get improvement

- 1. The width of leg inner side can adjust, bed laptop desk, under the desktop and between the leg space can receive human body, it is not good to use at too wide or too narrow, too high or too low, the width of 705 desk height and between the leg.
- 2. Add the deputy desktop and adjusted by 5-dimension, this can nature stretch the arm of user, not left, not tire and not uncomfortable, the other make the palm between the keyboard and mouse when exchange, the shoulder, elbow, wrist as soon as possible reduce activity or only a few activity.
- 3. the width of the desktop reduced and thickness increase 3mm
- metal screw deep 2.5mm, the force is power eating nail. desktop stronger and not easily damaged during transport. at the same time the table increase 0.15 kilograms more.
- 4. The structure of packaging get improvements, difficult to damaged at transfer process. other feature can reference 701
- Main desktop size :30X42X1.2cm(the width decrease 6cm than 701 and thickness increase 3mm)
- The high range of main desk adjust:17-19.5cm
- Desktop oblique adjustment range :360 degree
- The distance of between leg:49.5-60.5
- deputy desktop size:3kinds
- According deputy desktop size different:705 divided into 705—1 (deputy desktop size 23.5×19.5cm) and 705—2 (deputy desktop size 28×20cm) 。 705-3 deputy desktop size the same as 28×20cm, but more a cup palm
- deputy desktop high adjustment range : 14.0-31.5cm
- deputy desktop right-left adjustment range : within 5.5cm
- deputy desktop forward-backward adjustment range: deputy desktop 2 fixed screw nut 4.3cm, through vertical leg oblique, can get 18cm adjustment range again.
- Deputy desktop around the horizontal axis (oblique) adjustment range: 360 degrees
- Deputy desktop around the vertical axis (right-left) adjustment range: 100 degrees, depending on the angle of the vertical legs
- Desktop material: vacuum absorb plastic environmental protection MDF
- Leg material : Russian camphor wood
- Available colors:whit pink blue cyan orange.
- Drying: hot air of 85℃, 180 hours
- Degreasing: no degreasing (camphor contains the minimum amount of fat in all types of pine resin)
- Hardware: "Folding life" special hardware
- Tenon plastic: Novoherkassk (Shanghai Norton)
- Patch plastic: Connaught glue .Koyo of Japan
- Paint: Yaguang paint
- Polisher: 500# sandpaper
- Technology standards: IKEA style
- Formaldehyde content: European E1 standards is 8mg/100g (formaldehyde international standard is 10 mg / 100g, The European standard is 8 mg / 100g, China's wood-based panel for the formaldehyde content of the standard is 30 mg / 100g)
- Assembly: no need any tool assembly only 2 min
- Out package standard: double layer corrugated paper of export standard
- Packing specification: 53×35×4cm
- weight: 2KG

Foldinglife 7series—706

- Features: 706 under 705 of all the advantage get improvement
- (1) the desk face take plastic edged , superior quality and smooth, Bump resistance,add the face strong,the sides increase hands position,it is convenient,it is save when the operator move the desk.
- (2) Baffle board used by plug way,can adjust the distance between the baffle board, normally use when notebook within switch plug, and also adjust the hight of baffle board,can meet different thickness notebook need of slide
- (3) The hight and oblique of Main desktop and deputy desktop can adjust in 360 degree
- (4) Support the use of sitting, half lying , flat lying. Legs are free to twist, will not affect
- Main desktop size :30X42X1.2cm
- The high range of main desk adjust:17-19.5cm
- Desktop oblique adjustment range :360 degree
- The distance of between leg:49.5-60.5
- Baffle board hight:2-3cm
- Desktop underloading :60kg
- deputy desktop: 23.5×19.5cm (706-1) , 28×20cm (706-2) , 706-3 size the same as 706-2 ,only more cup palm
- deputy desktop size:3kinds
- according deputy desktop size different:705 divided into 705—1 (deputy desktop size 23.5×19.5cm) and705—2 (deputy desktop size 28×20cm) 。 705-3 deputy desktop size the same as 28×20cm, but more a cup palm
- deputy desktop hight adjustment range : 14.0-31.5cm
- deputy desktop right-left adjustment range : 5cm
- deputy desktop forward-backward adjustment range: deputy desktop 2 fixed screw nut 4.3cm ,through vertical leg oblique,can get 18cm adjustment range gain.
- Deputy desktop around the horizontal axis (oblique) adjustment range: 360 degrees
- Deputy desktop around the vertical axis (right-left) adjustment range: 100 degrees, depending on the angle of the vertical legs
- Desktop material: vacuum absorbt plastic environmental protection MDF
- Leg material : Russian camphor wood
- Available colors: true color pink blue cyan orange
- Drying: hot air of 85°C , 180 hours
- Degreasing: no degreasing (camphor contains the minimum amount of fat in all types of pine resin)
- Hardware: "Folding life" special hardware
- Tenon plastic: Novocherkassk (Shanghai Norton)
- Paint: Yaguang paint
- Polisher: 500# sandpape
- Process standards: IKEA style
- Formaldehyde content: European E1 standards is 8mg/100g (formaldehyde international standard is 10 mg / 100g, The European standard is 8 mg / 100g, China's wood-based panel for the formaldehyde content of the standard is 30 mg / 100g)
- assembly: assembled within three minutes without any tools
- Packaging: Three-layer corrugated paper monomer packaging
- 33.5×47.5×6.0cm,10 unit one big box, big box is 5 layer corrugated paper .
- big box wight 28KG

Foldinglife 7series—707

- Foldinglife 707 technology standard index
- 1、 Main Desktop size: $30 \times 42 \times 1.2\text{cm}$
(left-right span short 6cm than 701, thickness increase 3mm)
- 2、 Main Desktop high and low adjust range: 17—39.5cm
- 3、 Main Desktop oblique adjust range : 360 degree
- 4、 Between left and right leg distance : 49.5cm—60.5cm adjustable。
- 5、 Desktop Materials: Environmental protection MDF with injection Edge
- 6、 Materials of table foot: Environmental protection MDF with injection Edge
- 7、 Color: Gray edge、 White Maple Desktop face
- 8、 weight (including pack) 2.4KG
- 9、 pack : 3 layer corrugated paper unit package, $33.5 \times 47.5 \times 6.0\text{cm}$ 。 10 unit for one box, the box is 5 layer corrugated paper。 The box weight is 27KG
