

Company Profile

Aquatic established in 2000. We deals in water purification, RO systems, Filtration unit, Domestic and Industrial. Reverse Osmosis Plants, Demineralization. Plant and Ion exchange Resins, Water Softeners, Multimedia Filters, Waste Water Treatment Plants, Domestic Purification systems, Dosing and Controlling Equipment, High Performance Membrane Products, Composite and Fiber Glass Tank and High Pressure Vessels, Instruments and Control Systems, Electrodeioniation (EDI) Filtration Media (Anthracite, Birm, Activated Carbon etc.) and many more.

Why Aquatic is Safe?

The Aquatic drinking water systems are the very best in water filtration, providing you and your family with pure, fresh crystal clear drinking water - the way Nature intended!

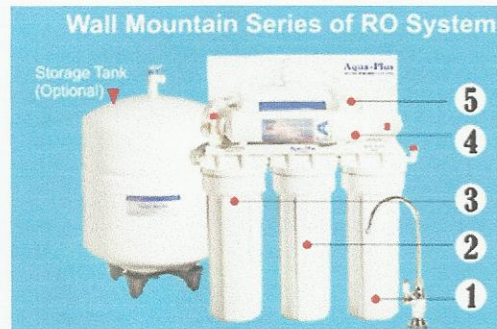

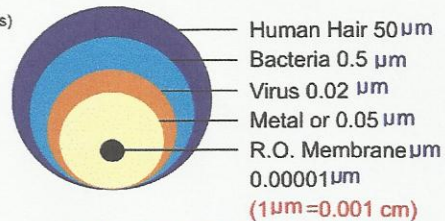

The Aquatic Systems utilize Reverse Osmosis Membrane technology, one of the world most advanced water filtration technologies available. It is undoubtedly the effective way to purify water within your home.

With Reverse Osmosis, water passes through an ultra-thin, semi permeable membrane which substantially reduces microscopic impurities, chemical elements and dissolved minerals and metals. The result is delicious, crystal clear drinking water.

Why Aquatic is Safe

The Aquatic RO System has been tested and certified by the National Sanitation Foundation(NSF) to dramatically reduce or remove the following contaminants:

Bad tastes and odors:	Mercury
Dirt and cloudiness	Herbicides and pesticides
Chlorine	Volatile organic chemicals (VOC's)
Lead	Copper
Giardia lamblia cysts	Aluminum
Cryptosporidium parvum cysts	Arsenic
Entamoeba histolytica cysts	Barium
Mould and algae	Cadmium
Asbestos fibres	Chromium
Oxidized iron	Fluoride
Oxidized manganese	Nitrate
Oxidized sulfides	Sodium chloride

- 1st Stage (5 Micron Sediment Filter)**
Removes sand, salt, dirt & rust particles.
- 2nd Stage (Active Carbon Block Filter)**
Remove Chloride, Organic matters.
- 3rd Stage (Granular Activated Carbon Filter)**
Removes harmful chemicals, Herbicides, pesticides, insecticide and smells, residual color.
- 4th Stage (RO Membrane)**
Removes Dissolved salts, organic germs, bacteria, virus, compound metals & harmful minerals.
- 5th Stage (Silver Impregnated Carbon)**
The Special Carbon Prevents Growth of bacteria at the point of use & restores the water's natural taste.
