About AGL
AGL Manufacturing Ltd. is located at the beautiful Canadian city of Vancouver. Incorporated in 1996, we have grown into a reliable and specialized source of Turbocharger components for ALCO, GE, and EMD diesel engines. Markets we serve include the railway, power generation, and marine propulsion.
We have our own ISO 9001:2000 certified facility in North China, named Taiyuan Anjier Machinery Industry Co., Ltd. With our 200,000-square-foot facility, we are able to manufacture a full range of turbocharger spare parts according to OEM standard.
AGL maintains a large on-hand inventory and has rapid access to thousands of spare parts, including hard-to-find and obsolete items.
