

# RE-USE

# RE-WEAR

# RE-CYCLE

**Nouratex Bvba** was established in Belgium, and our main focus is the international recycling business. We are currently the largest importer of second hand goods in Belgium. The second hand goods are divided in different categories, such as used summer and winter clothing, summer and winter shoes, bags, toys, household items, blankets, and more. The goods are well presented and mainly come from Europe. Due to the high standard of living in these countries, our goods are recognized to be of very high quality. **MS Group FZC** is now also registered in Sharjah, and we are looking for serious partners in Africa who wish to establish long term business relationships.

Since its creation, **MS Group FZC** has expanded very fast and has also been capable of broadening its business further in the fields of international transport. Nouratex Bvba was registered as a company in Belgium in 1984, and **MS Group FZC** is now register in United Arab Emirates which opened up new opportunities for establishing direct international business relationships. Since then **MS**

**Group FZC** has been able to transport goods from all over the world. It is worth mentioning that a MS Group is subsidiary company of Nouratex is involved in the business, and has already accomplished a number of different clients all over the world.

MS Group FZC motto is: **"The Environment Is Our Highest Priority"**. Based on that motto, MS Group FZC has already accomplished a number of smaller projects in the field of renewable energy generation. Our future plans involve more investments in this promising field. The results of international environmental research have demonstrated beyond doubt the importance of recycling and renewable energy for the environment, and as a business we wish to act responsibly to benefit the larger community.

### **Values:**

We believe in honesty and accountability in both our staff and ourselves. We take customer feedback seriously, understanding that your success will insure with us. Our definition of #1, #2, #3 won't change based upon your location. We also pride ourselves in including many premiums in our bales (we don't make separate bales of branded clothing, dockers, cargo pants, sexy shorts etc).

### **Used Clothing**

By any standard, our quality is exceptional. We enjoy an excellent market reputation and have always earned the repeat business and trust of our first-time customers. Customers have traveled from Belgium, United States, Africa and South East Asia to visit our Warehouse.

We grade the best used clothing available, including original clothing. We're constantly working to grade the best mixed clothes, this means the best possible product for our customers. Your bales are guaranteed to be made in-house and meet our quality standards.

## Used Shoes

We sell all over the world, in particular Africa, Eastern Europe, the Middle East, South America and Asian countries

Nouratex Bvba have been a second-hand shoes seller for many years and will sell a variety of second-hand shoes to satisfy the needs of the market.

We cooperate with experienced and famous forwarding companies so that we can arrange for the shipping of the

goods with the necessary transport documents in your name and on your behalf

Original is passed through a simple screening process whereby we inspect the plastic sacks to ensure they contain only second-hand shoes.

Our collectors are out on a daily basis, collecting second-hand shoes straight off the hanger into the factory. The shoes are then sorted and graded by experienced graders.

Once selected, the second-hand shoes are neatly placed into sacks which weigh approximately 25 kg and are sealed by sewing machines. These are ready to be transported to our clients in all over the world.

## Sorting

The sorters throw  $\pm$  85% of the sorted material in a module of 24 to 28 boxes in front of them.

These items are evacuated automatically to carts, bins or a second sorting operation. The remaining 15% goes into carts or bins besides or behind the sorter. These items are evacuated manually.

## Extra AA Grade

### Winter and summer

Boutique quality for Europe & Eastern countries

- Specifically aimed at the African markets
- Clean summer clothes, without cracks or faults
- Only slightly used clothing

# Cleaning Rags & Recycling

Welcome to the textile life cycle!

We are improving our international business relations continuously and looking forward for new customers for long term business.

We wrap our higher quality products folder separately in our plastic sheets. We are able to make huge bales with our machines.

The aim of this brochure is to draw your attention to the products of our company.

We wanted to create a representative product line that will attract those who are interested in different types of product and we want them to find relevant information.

We are trying to demonstrate the quality of our products, the conditions of sorting and other technical background with photos.

To meet these high requirements our personal is intensively supervised. The specially trained employees make sure that all incoming materials are optimally processed. After processing the products are shipped around the world to other parts of Europe, Africa, Asia, the Middle East, America and Russia.

Through our built-up market knowledge we are able to respond effectively to local and cultural needs.

## Our Partner:

Thank you for your attention!

If you are interested, please contact to us with your inquiry and our colleagues will be at your disposal. Regarding your request we could send our full seasonal price list.

You are welcome to visit us at our premises if you are especially interested. You will be shown all details and help you start your successful business.
