

MEDICAL DESIGN

With your best wishes, We feel much pleasure in introducing our selves to your esteemed house as one of the prominent self-manufacturers of **Dental Instruments, Surgical Instruments, General Instruments, Holloware Instruments, TC Instruments** of all kinds.

MEDICAL DESIGN manufactures its products under skilled workers, used high Standard stainless steel, AISI Standard 400 series, 300 Series, Japanese, French, High Carbon of Pakistani Stainless Steel as well, and tested from Laboratory of Surgical Association of Sialkot- Pakistan.

MEDICAL's quality commitment is paramount at every level of production and distribution of our instruments. We are dedicated to the continued improvement of the instrument line and all personnel are committed to "Quality Control Assurance".

Today, Medical Design counts on its internal organization (UK, France, Germany, Italy, Lithuania, Brazil and North America) and more than 200 dedicated employees and distributors that interact daily with our end users, permitting us to expand and improve our precision instrument product line.
